Policy

1. Systems and processes

- DIT:
 - Maintains sound administrative practices and processes to ensure secure and effective management of student records.
 - Has established processes for managing student records – this includes processes for managing course applications and enrolments, student files, results and attendance, course completions and withdrawals.
 - Maintains a file for each enrolled student and stores these in lockable filing cabinets. Each student file includes copies of all relevant documents relating to the student's enrolment, delivery and certification. Student files are archived at the end of a student's course and kept for a minimum of 7 years past the date of completion or withdrawal.
 - Records all student information on its AVETMISS-compliant student management system, RTO Manager. Information stored in this system includes mandatory statistical enrolment questions, class attendance, course enrolment information, results and unit attainment, correspondence and records of issuance of AQF certification. This system stores records of course, qualification and unit attainment and issuance for at least 30 years as required by ASQA.
 - Regularly conducts internal audits of student files to ensure the records are accurate and complete. Any issues identified during a student file audit will be rectified and root cause of the issue identified to avoid re-occurrence.

2. Record keeping

- Student records will be kept for the following minimum periods of time:
 - **Evidence of assessment decisions for VET students** are kept for minimum 6 months past the date of course completion or withdrawal.
 - **Records of unit attainment and issuance of a qualification or statement** will be kept for a period of thirty (30) years on RTO Manager as required by the Standards.
- Students are able to access the records that DIT holds about them by putting a request in writing using the *Access to Records Request Form* as per the *Privacy Policy*.
- Records will be made available to ASQA and their auditors upon request.

3. Course enrolments, entry and admission

- Individuals wishing to apply to enrol in a course with DIT can do so by following the procedures outlined on the relevant Course Outline and in our Student Handbook.
- Individuals must demonstrate that they meet the entry criteria for a course stated on the Course Outline.
